

GARRISON IS NOW DESPERATE

Russians Fight Like Demons to Repeal the Japanese Invaders From Forts.

BESIEGED IN THE DEPTHS OF HELL

Russian Correspondent Describes Scenes in the Stricken City—Awful Sights Are Seen Daily.

(Special by Scripps-McLain.)

Chefoo, Nov. 5.—Information has been brought by Chinese that the six days of bombardment and desperate efforts on the part of the besiegers to take the fortress at Port Arthur ceased Thursday. The Japanese took Fort No. 3, but were unable to hold it. The Japanese losses are reported to be enormous.

Letter From Port Arthur.

London, Nov. 5.—The Daily Mail's Chifoo correspondent cables a long letter received from a Russian in Port Arthur, from which place it was despatched on Oct. 27. It deals mainly with past events and shows the position of the besieged as being in the depths of hell. The writer says:

"The principal forts are uninjured, but most of the town is in ruins. The harbor works are in a sad plight. Some of the ships have been injured by falling shells and it is impossible, with our scant resources, to repair them.

"The hospitals are crowded with men suffering from sickening wounds. There is not a single bottle of anesthetic in the place and the wounded endure agonies. Food is of the coarsest description and is beginning to be scarce. There is much disease.

"Still, hope to hold out. But we are all animated by a resolve to hold out. Our trials and hardships and terrors have made us something more than human. We have left behind us our memories of civilization and live in bombproof shelters like the prehistoric men lived in caves. These shelters over and upon are penetrated by shells. Our soldiers are gladiators, greathearted heroes. Disasters on land, worse than disasters at sea, do not affect them except for the moment. Their numbers are thinned, but they believe relief will come. Day and night we expect to hear the boom of the guns of the relieving host from the northward, or to sight the vanguard of the fleet from home. In that belief and confidence is our strength.

Can Endure Little More.

"We fight for the flag, but there will come a time when there will be no bearing the inconveniences of the siege due to sickness, scarcity of food and cramped quarters.

"There is no enduring the unceasing hell of bursting shells which are scattering houses, killing friends and tearing huge holes in the ground, to say nothing of the miasma arising from corpses rotting on hills and in ravines around the forts. The stench breeds flies, with red heads, the bite of which is poisonous, that are increasing in number.

"The bombardments have lately increased in fury. Fifty messengers of hate and destruction greet us every minute. A few days ago our whole garrison sallied out. It is evident that the Japanese are making another fanatical attempt to capture the fortress, but they cannot succeed. They only add to the terrible number of their dead.

Meet Death in Silence.

"The uncanny part of all this is that these men meet death in utter silence. One sees the fiercest fight, but hears no sound.

"One moonlight night at Hsienan I watched an assault by a ghostly mass of moving figures, through which continual lanes were made by our guns, admitting glimpses of the scenes behind. These gaps were closed up as if by magic and the masses surged onward, while our men, forsaking their trenches, sought shelter in the forts.

"On they came until close up. Then the mines exploded, the earth opened, and the bodies were hurled high in air, and then sank to the earth. Dead hands clutched rifles. In the moonlight the bayonets looked like fire, works shooting upward and descending point downward into the bodies of their owners.

"I believe all inventions of military genius will be unable to daunt these heroes, who are incapable of recognizing that so long as we have ammunition the fortress is impregnable."

Sewer Diggers Leave Portion of the Road in Front of Station Untouched.

In order to finish up the sewer work in front of the east side fire station so that the ditches and piles of dirt would cause the department no delay in responding to a call the full gang of laborers was put at work this morning in the ditch on South Main. A portion of the road about fifteen feet in length will not be displaced until the rest of the road in front of the station is filled again and made passable.

THIRD WARD WON FROM EVANSVILLE

Defeated Visiting Team at Athletic Park This Morning by a Score of 16 to 0.

At the Athletic park this morning the Evansville team and the Janesville third warders contested a game of football that resulted in a victory for the local eleven by a score of 16 to 0. Janesville kicked off to the visitors and getting the ball on a fumble and in a short time had crossed the goal line for a touchdown. On the first half Janesville scored making it eleven to nothing. In the second half the game was closer but the local boys managed to add five more to their score by a touchdown. The stars of the game for Janesville were Mills, Brown, Clark, and Parker; for Evansville, Gillis and Brink. The eleven lined up as follows:

PARTED WITH ROLL OF TWO HUNDRED

W. L. Stark, Representing Milwaukee Liquor House Met III Fortune Here Last Night.

W. L. Stark, agent for the J. P. Klesenger Co. of Milwaukee, dealers in wines and liquors, reported to the police this morning that sometime between six o'clock last evening and this morning he had lost a roll of bills amounting to about \$150 and checks amounting to about \$10. He paid his hotel bill about six o'clock, expecting to leave for Milwaukee early this morning. After that he visited the Myers House bar and other places where liquor refreshments are dispensed and retired about seven o'clock. It is believed that he dropped the pocket-book at some of these places and that it was picked up by some person who thought about the winter's coal bills soon to be met and decided to keep it. The checks were from John Heister and Edward Dermody and were made out to the firm Mr. Stark represents. He remained in the city until noon today and warned the banks not to cash the checks, should they be presented.

USES AN AX IN HIS WILD FIGHT

Farmer on the Beloit Road Tries to Demolish His Brother-in-Law's Home.

This afternoon Sheriff Appleby received a hurry-up call from the Beloit road and on driving out found the home of a stone-cutter named Kelley, a wreck. Mrs. Kelley and an infant child hiding in the fields and Mr. Kelley at a neighbor's home waiting for reinforcements before he returned home. Standing in the midst of the ruin he had created, a brother of Mrs. Kelley, was found and around him was a broken door, smashed windows and a wrecked home. There had been some trouble between Kelley and his brother-in-law over some property and Fullerton is alleged to have struck Kelley, who is a small man, and then pursued him to his home. Kelley barred the door but Fullerton, it is alleged, smashed it down with an axe and Kelley slipped out through a window to a neighbor's where he summoned the sheriff. Meanwhile it is claimed Fullerton drove his sister and her infant out into the field and proceeded to smash up the furniture. He was arrested and taken to the jail where he is now securely confined.

STATE NOTES

The Rev. Fred Staff of Fort Atkinson has resigned his charge and accepted a pastorate at Grand Rapids. A son of J. Watson Stephenson was badly burned on Friday at his home in Marinette while playing with parlor matches.

A Wisconsin Central train ran down a horse and buggy at Oshkosh Friday night, killing the horse and wrecking the buggy.

Efforts are being made to locate Aldine Petersen, a 17 year old girl, who disappeared from Pleasant Prairie, Kenosha county, last Monday.

Farmers in the western part of Itasca county are to organize up a protective association against hunters, who are playing havoc with their cat tle.

The J. I. Case Threshing Machine company of Racine has been awarded a gold medal for the best display of threshing machines at the St. Louis fair.

Albert Boehm, an aged naturalist of La Crosse, is the premier taxidermist of the world, having been awarded the gold medal at St. Louis for the finest exhibit of stuffed birds and animals at the Louisiana Purchase exposition.

Kenosha county is in a peculiar situation in regard to the filling of the vacancy caused by the resignation of George W. Taylor as county superintendent, as it is said there is not a supporter of the governor in the county who is qualified. The state superintendent probably will appoint a man from another county.

It is reported that E. E. Welch of the Marshfield Stave company, who recently built a large mill at Park Falls, is contemplating removing his plant from Marshfield to Park Falls. This company has large timber interests near there, and as the timber is all gone from the vicinity of Marshfield it can make a great saving by moving the plant to that city.

time. Dr. Wilder who will speak Wilder's address was more on the state. He is the editor of the Wisconsin State Journal, the official state paper, and has an intimate and personal acquaintance with the governor. He is also a writer of considerable prominence and has spoken at noted banquets all over the country. He recently returned from New York especially for the three speeches he is to deliver in Rock county. He spoke last evening at open-house will be taxed.

SAY THAT WILD MAN MADE SAVAGE ATTACK ON GIRLS

Three Young Women Beat Off an Uncanny Individual and Run for Home—May Be Murderer of Others.

(Special by Scripps-McLain.)

Clinchfield, Nov. 5.—A half naked wild man, whose abode is supposed to be among the tombstones of Spring Grove cemetery, and who has for six months frightened women and children in the neighborhood by his uncanny appearance and weird shouts, is believed responsible for the murder of three pretty girls, whose bodies have been found near the cemetery, within the last few months.

This theory gained strength when three girls living near the scene of the murders reported to the police that they had been attacked by the fiend about 10 o'clock Thursday night, the hour at which all the murders have been committed.

Attacks Three Girls. Mamie Roddy, Lizzie Welmer, and Mamie Wehmer while passing the cemetery were attacked by the man. He struck at them and tried to throw one of them to the ground, but the three girls turned on him and by pulling his long hair and beard and digging at his eyes with their finger nails succeeded in making him release his hold.

The wild man finally leaped over the cemetery fence and disappeared among the grave stones. The girls were so frightened that they ran all the way home.

No trace of the supposed wild man has been found. He is described as being 40 years old, with long hair and beard, barefooted and wearing knee pants. He wore no hat, but had on a long, dark overcoat.

The murder of Alma Steingeweg, whose mutilated body was found near the cemetery Thursday, closely following the mysterious killing of Mary McDonald and Lulu Mueller within a radius of half a mile, and this attack on the three girls has terrorized the residents of Cummins-ville, and few women are venturing out of their homes at night.

Clew to Murderer. The only other clew to the murder of Miss Steingeweg is the story of Frank Linn, the conductor on whose car she rode on her way home, Wednesday night.

He says on Monday night a short, stout man boarded the car with Miss Steingeweg. He alighted when she did, with other passengers. Miss Steingeweg had a transfer for the Whiton road car, but the stranger asked for no transfer. The conductor wondered why the man took the car for such a short distance.

Along With His Victim. Tuesday night the man did the same. Then, also, other passengers got off with Miss Steingeweg, but on Wednesday night the man alighted alone with his victim.

Jacob Kollmer, a saloonkeeper, says a stranger, dusty and nervous, entered his place a few squares from the scene of the murder Wednesday night and asked the nearest place to board a freight train.

The president of the telephone company has offered a reward of \$1,000 for the arrest of the murderer of their employe, Alma Steingeweg.

JEFFERIS WAS TOO MUCH FOR THEM

THE FOOTBALL MEN FAILED TO BREAK UP HIS MEETING.

PECK IS NOW THE FAVORITE

Madison People Are Going to Vote Against Their Fellow Citizen.

(Special to The Gazette.)
Madison, Wis., Nov. 5.—Members of the University of Wisconsin football team broke training last night to attempt to disrupt a political speech by Malcolm G. Jeffris of Janesville, a leading stalwart republican, and were squelched effectively by the speaker. Mr. Jeffris was "taking the cover off" the La Follette administration, roundly scolding the governor for maintaining on the payroll of the state leading university athletes, presumably in repayment for political services. E. J. Vandenberg and Frank Grogan, both members of the football team employed by the state administration, were in the gallery, accompanied by a crowd of students of La Follette inclinations, and led the hissing of the speaker. They yelled "rotten, rotten" and the reply of the speaker was the sarcasm:

"Yes, 23 to nothing." This reference to the Michigan score against Wisconsin was bitter to the football players and they redoubled their efforts to disturb the meeting, until some were ejected from the opera-house, notwithstanding that the speaker desired that they remain and hear what he had to say about the governor. Vandenberg is employed in the office of the state treasurer, Grogan in the department of state and some forty other students in the department of statistics. They receive from \$20 to \$64 a month. As many as 14 members of the football squad are on the payroll of the state, their positions secured in most cases through assistance of C. C. Coehens, who is a brother of Henry E. Coehens, secretary of the La Follette state central committee.

Student Vote.
It appears from careful estimates that the result of the election in this county depends upon the student vote, as regards some candidates, and great efforts are being made to "catch" them. The hired students at the capitol are netted for Governor La Follette, claiming that his friends in this regard lends great strength to the football team. Speaking on this point Mr. Jeffris said:

Saps Vitality.
"There is nothing that saps vitality so much as graft. Football teams must be full of vitality. Just so long as the athletic teams of the university are made the instruments of a political machine and supported by graft jobs that drain the public treasury, just so long will the score be 23 to nothing against you." The spirit of this situation, whereby athletes are maintained on the payroll of the state for some service or other, is so strongly suggestive of professionalism that efforts to stop it have been made, but it has been found hard to get at for the reason that few are inclined to do anything here that may seem to be interfering as an attempt to injure the university athletic teams.

On the Eve.
Wisconsin is on the eve of the close of the bitterest, hottest campaign that was ever waged in the history of the state. Old citizens fail to recall the time when there was so much mud slinging as there is this year. The corrupt methods which "Reformer" La Follette has pursued to further his cause has resulted in bitter feeling and it will take years before the wound in the republican party is healed up. Since the split in the party last spring friends and neighbors were arrayed against each other. Conservative republicans hope that such dirty work as that pursued by Governor La Follette will never be repeated in campaigns hereafter.

No Betting.
There is practically no betting on the outcome of the gubernatorial race. Shrewd politicians refuse to make any predictions for either side. Lieutenants of the "reform" governor feel confident that La Follette will get all the way from 40,000 to 75,000 majority. La Follette is doing his utmost to get a legislature that will fall on its knees before him and obey his command. If he succeeds he will get his "reform" movements through which he has been advocating in his campaign speeches throughout the state for the past few months. Since the governor went out on the stump preaching his primary and freight commission victories Wisconsin really had no governor. Only irresponsible insubordinates were in charge of the executive office in the capitol. It is remarkable that La Follette denounces the railroads and charges them with unfairness when only a

short time before he first became governor he defended the Chicago, Milwaukee & St. Paul railroad company in several damage suits.

Peck Likely.
It would not be surprising if George W. Peck, the democratic gubernatorial nominee, would go into office with an overwhelming majority. Peck will have practically the united support of the German Catholics and Lutherans as well as a large share of the conservative voters of the republican party. A democratic legislature is also assured. In his speeches La Follette is denouncing those republican legislators who voted against his principles two years ago and is urging the voters to cast their ballots for the democratic candidates if a stalwart is in the field in their district.

National Ticket.
In spite of the fact that the half-breeds are using all efforts to defeat Congressman Habcock in the third district they can not beat him. In presidential years the majority in the district is 12,000. Friends of Habcock declare that their candidate will get at least 5,000 majority. A republican national ticket is safe in Wisconsin. President Roosevelt and the entire electoral ticket will be elected by at least 50,000 majority. The national fight will make no difference with the national ticket for it will get the support of all stalwarts.

GENERAL GOSSIP AT UNIVERSITY

What Is Being Done in Varsity Circles by the Students and Others.

A party of seventy-five senior and junior electrical and mechanical engineering students of the university, of Wisconsin with five members of the faculty of the college of engineering are spending this week at the St. Louis exposition inspecting and studying the exhibits of machinery and electrical apparatus.

University Christian Association Building.

Ground has been broken for a \$60,000 university club house at the university of Wisconsin to be erected by the "University Young Men's Christian Association, with the funds contributed by public spirited citizens of the state, and students and alumni of the university. The building, which will be a five story brick structure 125 feet long and 56 feet wide, is admirably situated, being on the shores of Lake Mendota, next to the gymnasium and boat house and directly opposite the lower campus. Among the features of the building will be a large auditorium, restaurant, bowling alley, club and class rooms, barber shop, and rooms for about thirty students.

Home Economics at the University.
The department of home economics provision for which was made by the last legislature, began its first year of regular work this fall, and a considerable number of students are now enrolled for this work, part of whom are preparing themselves to teach the subject, and part of whom are taking some of the courses as a part of their general education. The department offers courses in the sanitation, decoration and management of the home; as well as courses in foods, food materials, and dietetics.

University Weather Station.
At the request of the board of trustees of the university of Wisconsin the United States Weather Bureau has established a regular station at the university, and the forecasts and weather every morning are sent to nearly one hundred places in southern and central Wisconsin that can be reached earlier from Madison than from the other stations at Milwaukee and La Crosse. Warnings of frost, cold waves and snow storms will also be sent from this station. A course in meteorology for university students will be given by Observer James L. Bartlett, next summer.

Many Students at The University.
The indications are that the total number of students at the University of Wisconsin will reach 3,500 before the close of the college year. Last year there were 3,151 enrolled, and there has been a large increase this year. Beside the increase in freshmen, an unusual number of new students have come from other colleges and universities to enter the junior and senior classes at the university.

FAIR PROSPECTS OF THANKSGIVING

GREAT DINNER FOR EIGHT MAY BE HAD FOR \$4.50.

EGG MARKET VERY PECULIAR

Dealers Prefer Storage Eggs to the Fruit of Hens Which Farmers Keep Until Prices Rise.

Thanksgiving Dinner.
Cream do. Yolks 10c
Celery 10c
Baked trout en courtbouillon 20c
Fried Potatoes 20c
Roast Turkey, oyster dressing 15c
Cranberry sauce 5c
Sweet potatoes candied 25c
New spinach with eggs 25c
Roman punch 20c
Mince Pie 20c
Plum pudding 25c
Bananas, raisins and nuts 20c

With the above expenditures, amounting in all to \$4.50 a family of eight persons can have a satisfactory and enjoyable Thanksgiving feast. Every housewife finds it an easy matter to waste money when she desires to please by cooking. The study of the markets and a little economy, however, will usually prevent this. The price of grocery on Thanksgiving day is far below given up and it is not how much or how expensive, but how well the food is prepared that makes the dinner successful.

Market Survey.
Increased interest is shown in turkey, as Thanksgiving day approaches, and many of the dealers are looking up the prospects for the supply for the coming holiday. Reports are to the effect that there is not an overabundance of birds that will be in condition by that time. Opinions are freely expressed that fancy, plump birds will bring from 18 to 20 cents a pound. Not a few merchants claim, however, that these figures will not be reached. Turkey of ordinary size will probably be sold for from \$1.50 to \$2 each. Chickens have fluctuated more or less in price, but the range has not been wide. Ducks are firm and show a tendency to go higher. Dresser meats are all on a steady basis but the arrivals from the large packing concerns and from the country around Janesville will probably lower the price before Christmas.

Profusion of Apples.
Apples are the leading fruit on the market at present. Large shipments are expected to arrive in the capital city within a week. Merchants say that the car lot movement is expected to exceed that of many previous years. The bulk of the stock is now coming direct from the orchard to the retailer. The method of handling the fruit gradually "freezes" out the so-called middle man. Some of the dealers bought their own stock and are in a position to guarantee their apples.

Lemons Advance in Price.
Lemons are advancing steadily, owing more to reduced supplies than to any great demand. The year 1903 has been a losing one on lemons for the original handlers. Oranges are again a staple article. Apple supplies are in sight from Florida, Mexico and Jamaica. The present offerings are almost entirely confined to pears and quinces. Malaga grapes of fine quality came in during the week and are selling well, because they are good keepers. Concord are not meeting with exceptional demand.

Peculiar Egg Market.
The egg business has shown some peculiar features of late. Recent arrivals from the country have been somewhat unsatisfactory in quality and many retailers have preferred first class storage eggs at the same price, considering them better than the shrunken eggs that the farmers evidently held while the price has been on the rise. The general tone of the market shows firmness and it is probable that the price of hen fruit may go higher.

COSTUME DE VISITE IN VELVET, SABLES AND REAL LACE
The conjunction of velvet, fur and real lace has from time immemorial been one of the most favored of fashion, expressing as it does a combination of richness and beauty such as few others offer. The exquisite costume of the picture shows the new fitted corset with the broad, square shoulders, this entirely in the throat Chantilly lace over white chiffon, this in turn over a boned and fitted thing of white tulle. The fronts open over a vest of white embroidered muslin, and the skirt is covered with a spray in Russian gipsy. Smart little positions edged with white. The dainty pattern being defined with sparkling appliques. The whole appears above the hem, and enfolds the large lace inset on the sides, a bow knot serving to emphasize this dainty feature.

NONE OF NEW CROP BEING PURCHASED

Tobacco Buyers Have Practically No sorted Growing Districts—Weather Favored Late Leaf.

Indian summer has left the hanging tobacco crop so dry that no buying of it to speak of has been done in the last week. Very few agents have been in the field at all and what contracts have been made were mostly for older crops remaining in the growers' possession. As long as the present conditions of weather prevail, there is little prospect of any sales being made. The majority of the buyers being inclined to wait until easing weather before they again enter the field. Though the prices paid for old stock are rather low the movement from the growers to the handlers is gradually but surely depleting the stock left in the hands of the farmers. The 2000s packing of Ed. Simonson of Stoughton has been sold to Sam Grundy. Weather conditions though they have not helped the sale of the present year's crop have been most favorable for the curing of the late harvested crop and the pleasant fall weather has now about completely cured it. Nothing whatever is being done by Janesville dealers in the new crop but it is estimated that about half of the recent hanging has been contracted for by the American Cigar Co. and the United Cigar Manufacturing company.

The business transacted here during the past fortnight is as follows: Fisher & Fisher sold 1500s of 1901-02 and bought 3000s of same year's goods; S. Grundy purchased a car of 1903 from the northern section of tobacco; J. A. Ryan received two cars of 1903 leaf from the northern section also; M. F. Groome sold 412s of old, and Geo. Russell disposed of 762 s of old goods.

Bad Stomachs AND Torpid Livers

RESPONSIBLE FOR NINETY FIVE PER CENT. OF ALL DISEASES

"Seven Barks" Cures or No Pay

The cause of nearly every disease can be directly traced to clogged and inactive stomachs, livers or intestines. Biliousness, indigestion, gout, rheumatism, headaches, insomnia, kidney and bladder troubles, and all liver complaints, emanate from one of the digestive or drainage organs. These organs must be kept constantly in action to insure uninterrupted good health, and there is no remedy or corrective, so harmless and so certain as "Seven Barks."

There is no ailment originating from any of the organs of the digestive and drainage system, but what will readily succumb to the use of "Seven Barks"—a purely vegetable preparation, put up on a noted German physician's original formula. It is not a patent medicine.

If any one with stomach, liver or kidney troubles will call at our store and get a bottle of "Seven Barks," take as directed—and if all the benefit one should expect is not derived, no charge will be made. We are not taking chances in making this offer, for we know the character of the remedy and we are satisfied it will do all that is claimed for it.

GREAT INTEREST IN CHICAGO GAME

Heston and Yost Are Spectators—Surprises Expected in East—Big Nine Practice.

In the west many of the teams of the big nine are today playing practice games and through none will count much in the places which the different elevens will take, a line on the strength of some can be obtained from the size of scores. In the east two big contests are in progress and some surprises may be expected. At Cambridge, Harvard and Dartmouth are bucking each other and the betting stands six to five on Dartmouth winning and two to one that she scores. In the Princeton-West Point game at West Point, the latter should win, having done this better playing, thus far this season. In the west the closest games will be those between Iowa and Nebraska and Illinois and Ohio. In the lower Nebraska game at Lincoln, Iowa though crippled claim for themselves the victory, but the betting favors Nebraska who it is expected will win. Illinois and Ohio will be close but Illinois should win. Great interest is being taken in the game at Marshall field, Chicago, between Chicago and Texas, the latter being a heavy, husky team averaging 197 pounds to the man, but a team that never before has been heard of in football circles. Wisconsin should win from Beloit college by a score of thirty at Madison. Michigan is playing Drake at Ann Arbor and should pile up the score high, though Heston, Niggeross, Tom Hammond, and Longman will not probably be in the game. Heston having gone with Yost to Chicago to witness the game there. In the other western games Lake Forest should defeat Delaware at Green Castle, Indiana; Northwest should win over Colossus at Evansville and Knox win from the physical class and seniors at Galesburg. Though Pennsylvania should be victorious in the game with Lafayette at Philadelphia the result will be close and it is possible that the score may favor Lafayette. In New York city Columbia should win from Stevens and at Ithaca Cornell should win from Lehigh.

BELOIT STUDENTS PRESENT "EVERYMAN"

Old English Morality Play To Be Staged Under Auspices of College Literary Club.

Many Janesville people who are interested in the literature of the English language and especially those who have made a study of its growth and use through the different periods of England's history will be interested in the production of "Everyman," an old morality play of the dark ages by Rudolph E. Magnus and his company in the new gymnasium building in Beloit under the auspices of the college literary society of which Edward Saunders and Steven Pfeiffer of this city are members. "Everyman" is one of those old plays so reverently composed by the monks of the medieval times for the purpose of demonstrating to the illiterate people of the day the truths of the Bible in such a way that their meaning could be grasped and put into practice. The play is the vehicle of an old truth. The first reproduction of this class of play was made two years ago and since that time the colleges and universities of the land have been staging morality and miracle plays and companies have been organized producing the plays under the auspices of such institutions and organizations. This play of "Every-

A WOMAN TO BE PRETTY
Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. No cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Sewbro's Herpicide, an entirely new remedy of chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by local druggists. INFORMATION FOR VOTERS

Remember, there are two ballots to be voted for this Election: (1) The National, State, Congressional, Senatorial, Legislative and County Ticket. (2) The Primary Election Law Question.

HOW TO VOTE ON THE U. S. STANDARD VOTING MACHINE.

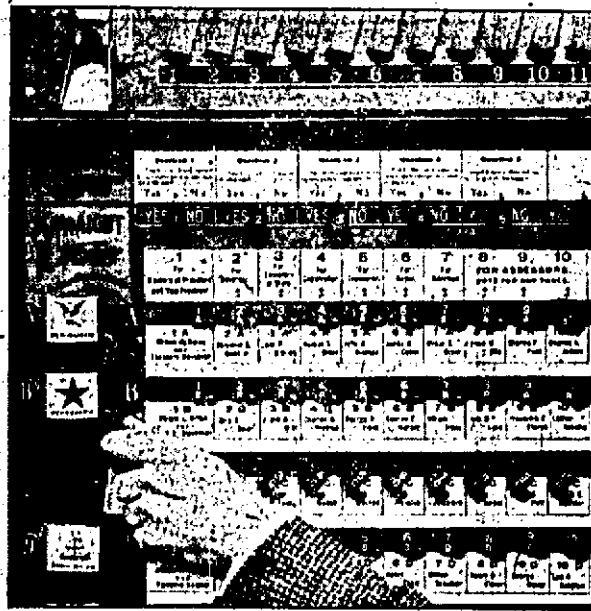

Move the Red Handle of the Curtain Lever to the right as far as it will go. This will close the Curtain around you, and unlock the machine for voting.

VOTER ABOUT TO CLOSE THE CURTAIN.

HOW TO VOTE A STRAIGHT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down all of the Pointers of your party to a voting position.

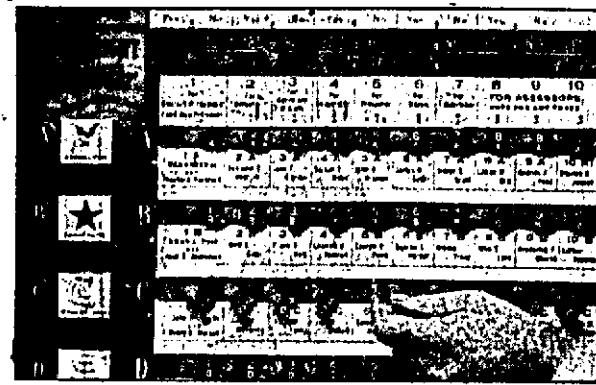

VOTER PULLING OVER PARTY LEVER.

Leave the Pointers as they are (down in a voting position). Move the Red Handle of the Curtain Lever to the left as far as it will go. This will count your vote, open the Curtain, and set the machine for the next voter.

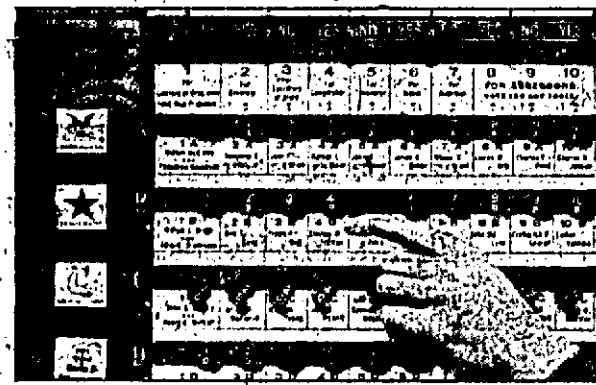

HOW TO VOTE A SPLIT TICKET.

Having closed the Curtain—Pull the Party Lever bearing the name or emblem of your Party over to the right UNTIL THE BELL RINGS, and then let it go back. This turns down all of the Pointers of your party to a voting position.

Turn back (up) the Pointer from over the name of the candidate you wish to cut. See illustration below.

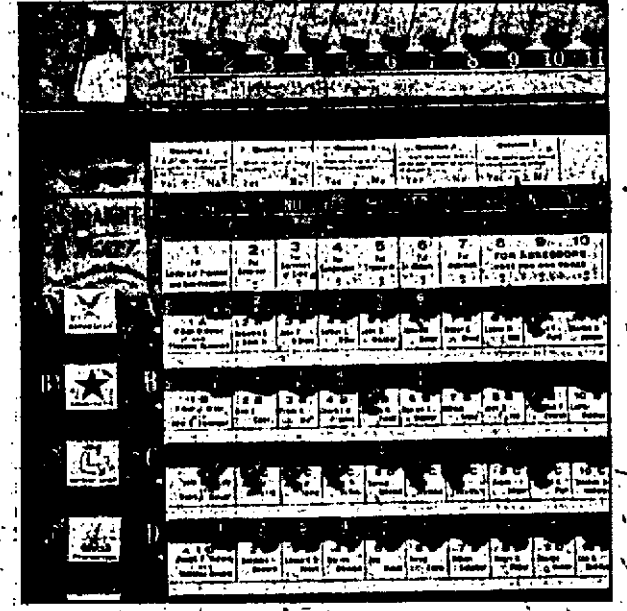

And then turn down a Pointer over the name of the candidate you wish to vote for for that office. See illustration below.

Be sure to complete each Split before making another. For an office to which two or more candidates are to be elected, the given number can be voted for, regardless of position. After the vote is arranged, move the Red Handle of the Curtain Lever to the left as far as it will go. This will count one vote for every candidate that has a Pointer left down over his name.

HOW TO VOTE ON QUESTIONS.

To vote Yes, turn the Question Pointer to the word Yes, and leave it there. To vote No, turn the Question Pointer to the word No, and leave it there.

THE ABOVE CUT SHOWS:

That the voter has voted Party Lever "C" and then—Split his vote for Treasurer, on Column 5. That he has voted for Assessors, voting for three on Column 9 (for which office he is permitted to vote for any three candidates on either of the Columns, 8, 9, and 10). That he has voted "Yes" on Questions 1 and 2. That he has not voted on Question 3. That he has voted "No" on Question 4. If the voter desires, he may make any further changes while the Curtain remains closed, as the vote is not registered until the Curtain is opened. The Pointers must be left down over the names to be voted for. If the voter turns them back the vote will not be counted, as the opening of the Curtain turns back the Pointers and counts the vote.

...Forty Years Ago...

Janesville Daily Gazette, Saturday Oct. 6, 1864.—Meeting of War Democrats.—We are requested to state that the War Democrats of this city and county will hold a meeting at Lappin's hall next Monday night for the purpose of counseling as to their duties at the present time. They have invited Hon. Matt H. Carpenter of Milwaukee to be president and address them on that occasion, and he has positively promised to do so. Of Mr. Carpenter as a public speaker it is unnecessary to speak as he is too well known to Rock County people to need any informal introduction from anybody. He is undoubtedly the most popular orator that Wisconsin can boast of at the present time. Gen. Carl Schurz is expected, and those who are present at Lappin's hall next Monday evening will hear one of the best political speeches of their lives, provided they go early enough to get in.

Meeting Tonight: The meeting at the court room tonight will be the best owing to the meeting of the war democrats on Monday, that will be held before election day. We hope to see a full house and trust that every earnest worker will be present. Important business is to be transacted after the speaking. Speeches are to be made by W. L. Mitchell, C. G. Williams, L. B. Caswell and others. Let all who can, attend.

Adjutant Millmore Wounded: We learn from Cap. D. A. Lowder of the

37th Wisconsin Infantry that while they were on picket duty near the Weldon railroad on the 25th, Adjutant Millmore of this city was shot by a rebel disguised in the suit of a Union soldier. The ball passed through his left shoulder grazing the back bone. The wound though extremely painful is not considered dangerous. He is now in the hospital at Washington.

BLIND STUDENTS MAKE STATEMENT

ASK FOR PUBLIC INVESTIGATION
OF THE SCHOOL.

WANT BETTER TABLE SERVICE

Claim They are Not Getting Sufficient
Food—Have Petitioned the
State Board of Control.

Last Monday night Governor La Follette stood upon the stage of the Myers opera house and told his audience that the so-called extravagance of his administration in the past four years was due to the increased care of the state's dependent charges. He explained at length the new home for the feeble minded, the state reformatory and other institutions of a similar nature. He did not, however, speak of the conditions which exist, have existed despite urgent petitions, at the State Institute for the Blind. Resting in a pigeon hole in the desk of the state board of control this petition laid at the very moment, the governor was extolling his administration and asking for reelection—a petition which set forth the wrongs of these state charges asking for food, begging for proper food that they might nourish their bodies. The situation is pitiful; these students are treated worse than prisoners. Not having heard from their appeal to the state board of control, these students, twenty-four of them, have made the following public statement through the columns of The Sentinel this morning:

"Since the undersigned students at the State Institute for the Blind sent out a petition to the state board of control asking them to investigate conditions at this school pertaining to food, numerous articles have appeared which we wish to correct. First, Harvey Clark, who made an investigation, stated that the food was bad for the time during Supt. Showalter's absence on a visit. We wish to state that we have had an insufficient food of poor quality since last spring, the food becoming worse this fall; that the bill of fare that we sent to the state board was not for the week that Mr. Showalter was absent, but was for the week beginning Sept. 25. When Clark visited the school Oct. 13 he did not talk with a single student or employee as requested, but visited with the superintendent, whom we suppose, denied our allegations, as any man in his position would.

Promise of More Food Not Kept. "Showalter next morning visited the dining room and told us we should have good and sufficient food. For a week this was so, then it dropped back to the old standard. We believe the money which should have gone for food has gone for building a green-house, in expensive experiments in raising fancy breed chickens, and to purchase a herd of Jersey cows.

"Since our petition to the board has failed we have no other resource than to ask for public investigation. It will be impossible for the students to remain here and preserve health unless the food is raised to a higher standard."

Say Food Was Spoiled

The original petition to the state board of control follows:

"We the undersigned ask your honors to investigate the conditions in this school as to the board. Those of us who have complained to the superintendent about food have been informed that we were making jokes of ourselves or that we were drawing on our imaginations. We are not getting enough good food and the food we are getting is not good and is improperly prepared. Many times meat which has been set before us has been spoiled, and is not fit to eat, at one time making the entire school sick. The cooks of the school are inexperienced, one of them admits it and the other shows it in her work. We do not ask for luxuries or delicacies but we do ask for good well cooked food. To further inform yourselves of the condition please enquire of the students or employees."

The petition was accompanied by a bill of fare for the week, three days of which are printed below:

INFANT ACQUIRES ABNORMAL GROWTH

A Few Weeks Has Witnessed an
Astonishing Increase in
Size.

Less than a month ago the Garvin-Murphy Co., organized to launch their new product and although the market was loaded with countless varieties of cigars of all sizes and prices, their "Garvin" immediately began forging to the front which occupied by high priced imported cigars. The topic of conversation in local gatherings is divided between "What do you think about the Wisconsin political situation?" and "Have you tried Garvin the new ten cent cigar?"

The immense sales in this city during the last two weeks are attributed mainly to the fact that this cigar contains more good Havana tobacco than most cigars at this price and that the skilled workmanship in perfecting this article is as thorough and complete as is found anywhere.

OBITUARY

Robert Lowry
Just before 12 o'clock today Robert Lowry of La Prairie who has been ill with stomach trouble for the past two weeks, passed quietly away. He was forty-nine years of age and had always made his home in Rock county, where his friends were legion. RED AND SKYBLUE ON THE GRIDIRON

MONROE AND JANESVILLE HIGH
SCHOOL PLAYING TODAY.

BAND ACCOMPANIES MONROE

Elevens Are Nearly Evenly Matched—
Locals Have Slight Advantage—
Big Crowd of Spectators.

With streamers of red and ribbons and banners of blue floating in the breeze at the Athletic park this afternoon and amidst the din of the tin horns and the yells of the rival schools, the referee's whistle blew for the kick-off of the football game between the Monroe and Janesville high school teams. Just which would win no one was certain, but each side had hopes and the general opinion was that though the Janesville team was badly defeated two weeks ago that they would this Saturday come off victorious. The change in the line-up is considered a good one by nearly all the devotees of the game and the majority of the players. Each one is determined to do his best and he knows that on the result of this game depends which team of the two will continue in the race for the state championship.

Teams Compared
Janesville has an older and stronger reputation than the Monroe team and outweighs them a few points to the man, the Monroe team averaging 125 and the local eleven, 138. The Monroe boys have played three games this season before today's, defeating Potosi at Monroe 6 to 0, Albany at Monroe 12 to 0, and losing to Precinct last week by a score of 6 to 5 the Monroe eleven falling to kick goal. The teams lined up as follows:

Monroe: J. Ryan, R. Jones, S. Stearns, C. Gooden, W. Lee, W. Wright, N. Sennett, K. Kaufman, R. C. Caldwell, S. Stauffer, J. G. Galbraith.
Janesville: J. Ryan, R. Jones, S. Stearns, C. Gooden, W. Lee, W. Wright, N. Sennett, K. Kaufman, R. C. Caldwell, S. Stauffer, J. G. Galbraith.

Brought Brass Band
When the Mineral Point train reached the depot at 10:40 this morning thirty young men with red ribbons flying from their button-holes and a jingling of instrument and music in their hands jumped from the steps of the coaches and formed in a circle near the platform where the members of the band immediately struck up a lively air. From there the players' band marched through the main streets to the Park hotel where they were registered for dinner. The band is composed of fifteen pieces, all members of the Monroe high school and the larger number players in the Monroe military band whose reputation is wide known throughout the state.

It is Janesville's Game

With a good sized crowd of spectators on side-lines the two teams entered the field. Monroe kicked off to Janesville and the home boys by a series of line bucks and end plays moved steadily down the field and shoved Caldwell over for a touchdown in the first six minutes of play. Carlo failed to kick goal. Score—Janesville, 5; Monroe, 0. Monroe again kicked off. Janesville made consistent gains and Galbraith ran ten yards for a touchdown. Goal missed. Score—Janesville, 10; Monroe, 0. Two more touchdowns, one by Knight and the other by Sennett after a sensational 30 yard run, were secured by the local team before the half closed. Carlo kicked the two goals. The half ended: Janesville, 22; Monroe, 0.

DR. JAMES MILLS RETURNED HOME

He Has Been Taking a Specialist's
Course in New York City
Colleges.

Yesterday Dr. James Mills returned to this city to resume his practice after taking a six weeks' specialist's course in the New York Eye, Ear, Nose & Throat college in New York city. Besides the practitioner's course in the Manhattan college and the Bellevue hospital he attended the advanced classes in the Post-Graduate Medical School and Hospital, an institution which is patronized yearly by physicians and surgeons from all over the country who wish to become more proficient in their respective specialties. At this college there are ample hospital quarters where they may witness many operations every day and attend the various lectures. Dr. Mills' study was particularly directed toward the complications of the eye, ear, nose and throat.

NOTICE

Every voter who does not fully understand the mechanism of the voting machines should go to the old Rink tomorrow afternoon and be fully instructed. The machine will be there and persons competent to instruct all will show just how the levers are worked. Be sure and go.

Lonessome La Follette: Bernard M. Palmer, secretary of the republican committee, returned last evening from a tour of Footville and Hanover. He says that he encountered only one La Follette man on his trip. Game Warden Here: Deputy Game Warden Peter Drafahl was in the city this afternoon. He says that the ducks have not yet commenced to fly in any considerable numbers owing to the warm weather. Hunting, consequently, is poor.

HUNTING SEASON FOR DEER OPENS

ON THE TENTH DAY OF NEXT
MONTH.

SEASON LASTS TWENTY DAYS

Many Hunters From Here Antici-
pate Going Into the Northern
Woods—The Game Law.

The hunting season for deer in Wisconsin will open November tenth and hunters are now preparing to leave on their annual pilgrimage to the woods in the search of venison. There will be a general exodus of hunters from every city in Wisconsin and there promises to be a wholesale slaughter of deer in the counties that are thickly inhabited by them.

Accidents Anticipated
There are innumerable haunts of the fleet-footed animal in the north. Hunters have their choice and the majority of them have already selected their place to visit during the open season. Game wardens are supposed to be in the woods to see that the deer are protected from the law-breakers and not hunters and on the morning of November tenth the hunters can point their rifles towards the hunting grounds without fear of arrest. Every man who ever visits the northern country during the deer season is as careful as he can possibly be but there are invariably many accidents and it is expected that the number this fall will not fall short of last year.

State Game Law
Following is the section of the game laws which relate to the hunting of deer:

Any person who shall take, pursue or kill by any device or contrivance whatever, or pursue with the intent to take, kill or worry any deer, buck, doe, or fawn between the thirtieth day of November and the succeeding tenth day of November, all the year except the last twenty days in November being thereby intended to be included in the closed or prohibited season for such animals, or who shall hunt deer, buck, doe or fawn, at any time with dogs or in the night time, or in either the counties of Sauk, Adams, Columbia, Richland and Marquette at any other time than during the last ten days of November of each year, or in either the counties of Fond du Lac, Sheboygan, Manitowish and Calumet, at any time or in the counties of La Crosse, Monroe, Vernon, Trempealeau and Jackson until the open season for deer in nineteen hundred and seven or who shall kill or capture any deer, buck, doe or fawn, or attempt to kill or capture such, in the waters or on the ice of any of the streams, lakes or ponds, within the jurisdiction of the state at any time, or who shall take, catch or kill any deer, buck, doe or fawn, by means of any pit, pitfall or trap at any time; or who shall make use of artificial light in hunting deer or have in his possession the skin of a deer when it is in its red coat, or any fawn when it is in its spotted coat; or who shall kill more than two deer in any one year, shall be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars, or by imprisonment in the county jail not less than two months or more than six months or by both such fine and imprisonment in the discretion of the court.

The hunting license which every hunter must obtain is supplied with two tags which are used in transporting the deer and without them it is unlawful to ship the game after it is killed. The law says that any person killing a deer may keep and

consume the same in his family if he files a notice to that effect with the game warden or deputy game warden on or before the last day of the hunting season.

NEWS OF A PERSONAL NATURE.

THE FAIR

Always in the lead when prices and quality are considered, we mention TWO items from our two floors of bargains:

HIGH HUNTING SHOES

This shoe is made for hunters and mountain tourists and all persons who are required to tramp around in places usually unfrequented by persons less fortunately shod. They are made of waxed calf skin which is water-proof and at the same time comfortable for the foot, 10 inches high with extra heavy soles and heels. These are usually advertised at \$3 and \$3.50—The Fair price, \$2.

MEN'S DRESS SHOES

You also need a pair of shoes for dressy occasions. We have a complete line of calf, patent calf, vel kid in all the favorite luster, these we sell for \$1.75. We could easily ask \$2.50, but The Fair's method is quick sales and small profits.

VOTE AGAINST THE PRIMARY LAW BECAUSE

The system necessarily keeps out of office everybody but office seekers, and tends to swell the number of that class.
Because the expense of making a canvass to secure a nomination is a practical bar to the poor man.
Because it gives to the rich an advantage over the poor.
Because it authorizes nominations by minorities which, in case of a large number of candidates for one office, may be only a small fraction of the voters.
Because it subjects the people to the annoyance and burden of two campaigns instead of one.
Because it secures to men in office a manifest advantage over new men and prevents rotation.
Because it takes from the people the right to draft their own platforms and confers that power on candidates, which is putting the cart before the horse. The people should never surrender the authority to make their own platforms and require the candidates to stand on them and carry them out.

IT DISRUPTS PARTY ORGANIZATION

Because it enables men who could not get a home endorsement to seek office with the same prospect of success as men in good standing, if they have the money to place their workers in the field.
Because it legalizes and sanctions office seeking and tends to increase the army of candidates, already much too large.
Because it practically shuts out busy men and business men who cannot and will not spend the time and money to secure nomination.
Because a system that makes nominations expensive tends directly to demoralize and graft.
Because it lowers the standard of citizenship when its nominations can be secured by the free use of money in hiring workers to circulate petitions and peddle tickets and in subsidizing mercenary newspapers.

BORT, BAILEY & CO.

Special Cloak and Suit Sale, Monday, Nov. 7th.

On this day we will have with us Mr. Lewis, who represents one of the largest Cloak Houses of New York City. He will have with him their full line of Cloaks and Suits, and as he goes from here directly to New York, he writes us that he will deliver any garment he has with him **at a discount**. This will give you an opportunity to see hundreds of nobby garments and to select one at practically wholesale price.

He writes us that he has with him in addition to the lower priced number a great many High Grade Cloaks and Suits, finer garments than are usually carried in a merchant's stock.

In addition to the garments shown by the Agent, and in order to make this sale a complete success, we will for this day make exceptionally low prices on our large stock.

Every Cloak in our stock will be reduced for this sale.

Every Suit in our stock will be reduced for this sale.

We Will Refit any Garment Without Extra Charge.

We will lay aside any garment if partial payment is made. We will take Special Measurement for large and small ladies, **and guarantee a fit.**

We purpose to make the same low prices on this Cloak Sale that we have and are making you every day on other lines in our stock.

If you want a Cloak or Suit come to us on **Monday, November 7th**, and we will do you good.
